

AI Cloud Cost Optimizer — Executive Intelligence Report

Workspace: Acme Global Tech Corp | Generated: 2026-08-24 06:06 UTC

1. Executive Financial Summary

Total Recorded Spend	Current Month Spend	Potential Monthly Savings	Cost Efficiency Score
\$43,006.64	\$1,156.27	\$21,499.91	85.0/100

2. Top AI Optimization Recommendations

Priority	Service	Problem & Action	Monthly Savings	Status
Critical	AWS EC2 / EBS	Terminate 2 Orphaned / Idle Staging Cloud Resources Take automated snapshots and terminate the unattached resources. Enforce automatic nightly shutdown schedules....	\$480.00 (95.0%)	Simulated
High	AWS EC2	Rightsize 3 Overprovisioned Compute Instances Downsize worker nodes from 2xlarge to xlarge during the upcoming Sunday maintenance window....	\$1,270.00 (50.0%)	Simulated
High	AWS Savings Plans	Purchase 1-Year Compute Savings Plans for Base Production Fleets Commit to a 1-year No-Upfront Compute Savings Plan for \$5,000/mo of steady compute capacity....	\$2,340.00 (30.0%)	Simulated
Medium	AWS S3 / Blob	Enable S3 & Azure Blob Storage Intelligent Lifecycle Tiering Configure S3 Intelligent-Tiering and transition objects older than 90 days to Glacier Instant Retrieval....	\$760.00 (58.0%)	Simulated

3. Detected Cost Anomalies & Spikes

Severity	Date	Service	Actual vs Expected	Deviation %	Possible Root Cause
----------	------	---------	--------------------	-------------	---------------------

Critical	2026-08-10	AWS EC2	\$366.22 (exp: \$128.50)	+185.0%	Auto-scaling group triggered on false memory alarm, launching 6 unneeded m5.2xlarge on-demand instan...
Critical	2026-08-17	GCP BigQuery	\$237.44 (exp: \$74.20)	+220.0%	Unpartitioned 8.4 TB historical audit log dataset was repeatedly scanned by ad-hoc reporting scripts...
Warning	2026-08-03	AWS RDS	\$194.40 (exp: \$81.00)	+140.0%	Provisioned IOPS spike caused by unindexed join queries during monthly batch ETL export....
